Who We Are

Empowering global communications since 1997, EC Innovations is a leading language services and technology solutions provider to the world's largest and most recognized companies. With offices around the globe and linguists in 100+ countries, we help our clients grow their international business. By leveraging the benefits of a true Global Communication Supply Chain, we empower them to improve their global brand recognition, increase efficiency and speed time-to-market, all while reducing costs.

Our Mission

EC Innovations seeks to be a single-source solution for all our clients' language needs. By providing the highest quality localization services and employing ISO-certified workflows, we ensure the successful execution of each project we manage. By using our cutting-edge workflow technology to automate many project management tasks, we also minimize the project management burden clients typically experience with other providers.

Suite of Services

EC Innovations offers a comprehensive suite of services:

- Website localization
- Marketing translation, trans-adaptation and transcreation
- Software and Technical Documentation Translation
- Multimedia and e-Learning Localization
- iSEO/iSEM solutions
- Desktop publishing (DTP)
- Machine Translation Post-Editing
- Structured Content Format Conversion
- TBMS, a business intelligence and translation workflow management system that can interface directly with your Content Management System

Why EC Innovations?

Quality and Reliability

Our reputation for high quality and on-time delivery is unsurpassed in the industry, and our ISO-certified processes ensure we maintain that edge every day.

Tools and Technology

EC Innovations uses TBMS, our sophisticated, best-in-class workflow and translation tool that streamlines the localization process and provides up-to-the-minute reporting functionalities. Additionally, we are highly skilled in the use of all major industry technologies (including all major CAT, DTP and e-Learning programs).

Scalability

With over 200 full-time employees and a pool of more than 2,000 linguists, EC Innovations has the resources, infrastructure and business systems to support the language needs of large and small organizations alike.

Competitive Pricing

Through a combination of low overhead, technology innovations and streamlined workflow processes, EC Innovations offers our clients highly competitive pricing without sacrificing quality.
